Office:(575) 289-3211 ext. 609

TRIBES AND NATIONS REPRESENTED IN CISD:

1. Navajo Nation

DATE OF SUBMISSION:
SEPTEMBER 30, 2025

RESUBMISSION DATE:
OCTOBER 15, 2025

SECTION 2 - INTRODUCTION

The purpose of the Cuba Independent school District Tribal Education Status Report is to meet the requirement of Title 6 Chapter 35 Part 2 Primary and Secondary Education Indian Education - Implementing The Indian Education Act 6.35.2.13 NMAC - Rp, 6.35.2.11 NMAC, 7/1/2020.

A. Beginning in school year 2020–2021, by September 30, each school district with tribal lands located within its boundaries shall provide an annual districtwide tribal education status report to all Indian nations, tribes, and pueblos located within the school district boundaries and to the assistant secretary.

B. Beginning in school year 2020–2021, by September 30, each school district adjacent to tribal lands may provide an annual districtwide tribal education status report to all Indian nations, tribes and pueblos with tribal lands adjacent to the school district's boundaries and to the assistant secretary.

C. A report provided in accordance with Subsections A or B of this section shall include the following information based upon data from the immediately preceding school year:

- (1) student achievement as measured by a statewide test approved by the department, with results disaggregated by ethnicity;
- (2) school safety;
- (3) graduation rates;
- (4) attendance;
- (5) parent and community involvement;
- (6) educational programs targeting American Indian or Alaska Native students;
- (7) financial reports;
- (8) current status of federal Indian education policies and procedures;
- (9) school dropout initiatives to decrease the number of student dropouts and increase attendance;
- (10) public school use of variable school calendars;
- (11) school district consultations with district Indian education committees, school-site parent advisory councils, and tribal, municipal, and Indian organizations;
- (12) Indigenous research and evaluation measures for effective curricula for America Indian and Alaska Native students; and
- (13) access to native language programs.

D. The division shall submit a statewide tribal education report to all New Mexico Indian nations, tribes, and pueblos on or before November 15 of each year. The report will incorporate data submitted to the assistant secretary in accordance with Subsections A and B of this section and will further include reports by organizational units within the department regarding activities they are engaged in with Indian nations, tribes, and pueblos related to the education of American Indian and Alaska Native students.

LEA Enrollment

The following charts provide information on total student enrollments as well as the number and percentage of Native American Students enrolled in the Cuba Independent School District (CISD). CISD serves the Navajo Nation.

SCHOOL YEAR	TOTAL DISTRICT ENROLLMENT	TOTAL NATIVE AMERICAN (NA) STUDENTS	% NA STUDENTS
2016-2017	554	356	64%
2017-2018	548	375	68%
2018-2019	559	376	67%
2019-2020	572	410	71%
2020-2021	636	460	72%
2021-2022	693	514	74%
2022-2023	744	569	76%
2023-2024	724	550	76%
2024-2025	706	536	76%

Note: All data presented in the TESR are disaggregated by ethnicity based on the two predominant student groups at CISD—Native American and Hispanic. Students who do not identify as Native American or Hispanic represent less than 10% of the total student population; therefore, they are not included in this report due to the small sample size.

In compliance with TESR requirements, this report is prepared in Font Aptos, 11pt with Standard 1” margins.

SECTION 3 - NM STUDENT ACHIEVEMENT

This section presents disaggregated academic performance data for Native American students, offering a clear view of trends, gaps, and progress over time.

Required

Proficiency data for students on the following assessments, disaggregated by grade level and ethnicity, with state and district comparison data (last three years, if available), and comments on intervention strategies or instructional programs is required for this report.

1.0 New Mexico Measures of Student Success and Achievement (NM-MSSA)

1.1 English language arts (ELA)

1.2 math

2.0 Dynamic Learning Maps (DLM)

2.1 English language arts (ELA)

2.2 math

2.3 science

3.0 New Mexico Assessment of Science Readiness (NMA SR)

Three-Year Comparison: Assessment Results for State and District Native American Students

NOTE: The SY 2024-2025 student proficiency data presented in this report has not been validated by the New Mexico Public Education Department and is subject to change. Embargoed data was used to complete these reports.

NM-MSSA ELA Achievement Results: Proficient & Above by Grade Level and Ethnicity

2024-2025	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	37.56	35.71	27.35	17.24
4	44.51	22.22	34.8	10.34
5	37.84	*	29.88	5.71
6	42.05	53.33	30.64	20.59
7	40.15	16.67	31.16	23.68
8	43.18	60	35.83	31.03
2023-2024	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	28.75	*	19.04	*
4	38.16	*	26.71	*
5	36.68	*	25.52	*
6	35.14	*	24.08	*
7	36.25	*	27.92	*
8	36.73	*	28.88	*
2022-2023	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	32.32	*	18.92	*
4	36.47	*	23.98	*
5	32.68	*	22.48	*
6	33.17	*	24.28	*
7	36.45	*	26.99	29.17
8	34.63	*	26.81	18.92

Note: Due to the small number of students tested, it was not possible to compare data across grade levels over the three-year period. This is indicated by an asterisk (*).

It is not possible to compare CISD and State Native American student NM-MSSA ELA score results by grade level for the category "Proficient or Above" over the three-year period 2022-2023, 2023-2024, and 2024-2025 due to the low number of students who were tested.

In SY 2024-2025, CISD Hispanic students in Grades 3, 4, 6 and 8 scored higher than CISD Native American students as follows: Grade 3 = +18.47 percentage points; Grade 4 = +11.88 percentage points; Grade 6 = + 32.74; Grade 8 = +28.97. In SY 2024-2025, CISD Native American students in Grade 7 scored higher than CISD Hispanic students as follows: +7.01 percentage points. In all grades, CISD Native American students scored lower than the state-wide average for Native American students, however CISD Hispanic students scored above average in the 6th grade.

NM-MSSA ELA Achievement Results:

Comparison of Proficient & Above State to District Levels by Ethnicity

	SY 2022-2023	SY 2023-2024	DIFFERENCE	SY 2024-2025	DIFFERENCE
NM State Native American Students	22%	19.04%	-2.96%	31.6%	+12.56
CISD Native American Students	11%	15.82%	+4.82%	18.04%	+2.22%
Percentage Difference	-11%	-3.22%		-13.56%	

Since we were not able to compute a three-year comparison by grade level, we have included a three-year comparison of CISD districtwide results with NM Statewide results. In comparing CISD Native American student and NM State Native American student MSSA ELA score results for the category "Proficient or Above" over the three-year period 2022-2023, 2023-2024, and 2024-2025, ELA assessment results indicate that CISD Native American students closed the gap with the NM Statewide Native American Indian students by **7.78** percentage points from SY 2022-2023 to SY 2023-2024. In addition, CISD Native American students increased "Proficient or Above" rates by **4.82** percentage points from SY 2022-2023 to SY 2023-2024 and by **2.22** percentage points from SY 2023-2024 to SY 2024-2025. Unfortunately, CISD students regressed when compared to state-wide data for SY 2024-2025 with other Native American students across the state.

NM-MSSA MATH Achievement Results:
Comparison of Proficient & Above by Grade Level and Ethnicity

2024-2025	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	20.25	21.43	14.68	3.45
4	23.39	11.11	18.62	6.9
5	28.19	0	21.34	0
6	29.05	13.33	20.72	8.82
7	21.59	16.67	15.56	7.89
8	13.04	20	9.46	3.45
2023-2024	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	20.21	*	13.20	≤ 0.20
4	21.17	*	14.09	≤ 0.20
5	26.97	*	20.46	≤ 0.20
6	25.56	*	17.10	≤ 0.20
7	14.75	*	8.66	≤ 0.20
8	14.26	*	9.11	≤ 0.20
2022-2023	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	18.22	*	10.35	≤ 0.20
4	2.02	*	12.83	≤ 0.20
5	29.48	*	2.25	≤ 0.20
6	26.41	*	18.42	≤ 0.20
7	19.52	*	12.06	≤ 0.20
8	14.08	*	8.45	≤ 0.20

It is not possible to compare Native American student NM-MSSA math score results by grade level for the category "Proficient or Above" over the three-year period 2022-2023, 2023-2024, and 2024-2025 due to the low number of students who were tested as indicated by an asterisk. We also attempted to compute a three-year comparison at the districtwide and statewide levels, but we encountered the same issues with masked data. However, for SY 2024-2025, we show that CISD Hispanic students were above the state average in grades 3 and 8 when compared to Hispanic students across the state. For CISD Native American students, no grades are above the state average for the grades listed.

DLM ELA Achievement Results:
Comparison of Proficient & Above by Grade Level and Ethnicity

2024-2025	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	12	*	11.36	*
8	20.13	*	25.58	*
11	26.29	*	31.37	*
2023-2024	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
3	21.08	*	≤ 0.20	*
8	25.29	*	35.29	*

GRADE	STATE	DISTRICT	STATE	DISTRICT
3	unavailable	unavailable	unavailable	unavailable
8	unavailable	unavailable	unavailable	unavailable
11	unavailable	unavailable	unavailable	unavailable

It is not possible to compare Native American student DLM science score results by grade level for the category "Proficient or Above" over the three-year period 2022-2023, 2023-2024, and 2024-2025 due to the low number of students who were tested as indicated by an asterisk. In addition, embargoed data was not provided by NMPED for state level data for SY 2024-2025. Also, NMPED did not provide DLM Science data disaggregated by individual grade levels for SY 2022-2023 . We also attempted to compute a three-year comparison by at the districtwide and statewide levels, but we encountered the same issues with masked data.

NMASR Science Achievement Results:

Comparison of Proficient & Above by Grade Level and Ethnicity

2024-2025	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
5	24.81	*	16.05	0
8	29.04	40%	24.29	10.34%
11	37	62.50%	31.67	19.15%
2023-2024	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
5	29.25%	*	18.67	≤ 0.20
8	30.29%	*	21.65	*
11	38.95	43.75	30.02	12.28
2022-2023	HISPANIC		NATIVE AMERICAN	
GRADE	STATE	DISTRICT	STATE	DISTRICT
5	27.63	*	17.41	≤ 0.20
8	27.74	*	17.16	≤ 0.20
11	33.01	*	27.07	11.11

It is not possible to compare CISD and State Native American student NMASR score results by grade level for the category "Proficient or Above" over the three-year period 2022-2023, 2023-2024, and 2024-2025 due to the low number of students who were tested as is indicated by an asterisk.

In SY 2023-2024, the CISD Hispanic students in Grade 11 scored higher than the State Hispanic student scores by 4.8 percentage points. The CISD Native American students in Grade 11 scored lower than the State Native American student scores by 17.74 percentage points.

In SY 2024-2025, the CISD Hispanic students in Grades 8 and 11 scored higher the than CISD Native American students as follows: Grade 8 = +29.66 percentage points; Grade 11 = +43.35 percentage points. In addition, Hispanic students in grades 8 and 11 scored higher than the state average, however Native American students did not.

NMASR Achievement Results:

Comparison of Proficient & Above State to District Levels by Ethnicity

	SY 2022-2023	SY 2023-2024	DIFFERENCE	SY 2024-2025	DIFFERENCE
NM State American Indian Students	20%	18.67%	-1.33%	23.96%	+5.29%
CISD American Indian Students	8%	11.67%	+3.67%	19.15%	+7.48%
Percentage Difference	-12%	-7%		-4.81%	

In comparing Native American student NMASR score results for the category "Proficient or Above" over the three-year period 2022-2023, 2023-2024, and 2024-2025, science assessment results indicate that CISD Native American students closed the gap with the NM Statewide Native American Indian students by 5 percentage points (from -12 to -5) from SY 2022-2023 to SY 2023-2024. CISD Native American students also increased "Proficient or Above" rates by 3.67 percentage points from SY 2022-2023 to SY 2023-2024 and by 7.48 percentage points from SY 2023-2024 to SY 2024-2025. Although CISD Native American students did not exceed the state average, they continue to improve and close the gap in science.

Comments on Intervention Strategies

Cuba Independent School District will strengthen meeting the needs of American Indian students as follows:

1. Disaggregate student test scores to the individual American Indian student level to better determine individual student needs.
2. Seek additional federal funds to ensure the needs of American Indian students are being met, i.e. Title VII Impact Aid, Johnson O'Malley.
3. Ensure that staff is implementing a culturally responsive curriculum and pedagogy that utilize local funds of knowledge, acknowledge traditional ways of learning, and affirm students' identities.
4. Ensure that staff is implementing Project-Based Learning that is interdisciplinary, ensures students are active learners rather than sitting passively, and focuses on using local history, literature, ecologies, etc.
5. Administrator Walkthroughs will assess fidelity of implementation of plans by teachers to prepare students for standardized testing.

SECTION 4 - SCHOOL SAFETY

This section outlines the Cuba Independent School District's approach to ensuring a safe and culturally respectful learning environment. It should highlight data on incidents, infractions, and safety protocols relevant to Native American students, along with narrative context about culturally responsive safety measures or collaborations with tribal authorities. **Required: 1. A summarize of district-wide safety practices, noting preventive measures, crisis protocols, and cultural responsiveness. 2. Data on infractions and incidents involving Native American students, if available. 3. Comments on culturally informed practices (e.g., coordination with tribal authorities).**

Cuba Independent School District (CISD) focuses on the following aspects of the school environment:

1. Student and Staff Engagement: cultural and linguistic competence, relationships, school participation;
2. Student and Staff Safety: emotional safety, physical safety, bullying/cyber bullying, substance abuse;
3. School Environment: physical environment, instructional environment, mental health, discipline;

CISD is committed to fostering a safe, welcoming, and inclusive environment for all students. In the past, students expressed concerns about the district's remote location and the limited availability of emergency services, which can take hours to respond. In response, students and families supported the hiring of armed security personnel to ensure immediate response during emergencies and enhance overall campus safety.

Beyond physical safety, CISD prioritizes addressing bullying and promoting a sense of belonging. Social-emotional learning (SEL) is integrated throughout instruction, with dedicated time for teachers to apply SEL strategies in their classrooms. The district's SEL Coordinator, along with school-site leads, ensures consistent implementation across all campuses. Through these efforts, CISD strives to create a learning environment where all students feel supported, respected, and connected.

CISD has shifted away from punitive disciplinary practices, adopting restorative justice approaches to address behavioral issues and conflicts. This model emphasizes accountability and personal growth, allowing students to learn from their actions without losing valuable instructional time. By focusing on restoration rather than suspension, CISD aims to reduce repeat infractions and strengthen student relationships.

Cultural responsiveness is central to CISD's mission, especially given that 76% of students identify as Native American. The district actively incorporates input from the Navajo Nation through tribal consultation, monthly chapter meetings, and ongoing engagement with families and community members. Feedback from students has also shaped district priorities. They have expressed a desire for more cultural events celebrating both Native American heritage and global diversity, as well as for staff who better reflect their identities. In response, CISD has increased Native American representation among staff and encouraged teachers to integrate Native-authored literature and culturally relevant materials into their instruction.

The district provides comprehensive on-site health services, including a school-based health clinic, dental services, and behavioral health support. These services ensure that students have access to preventive care, routine medical attention, and mental health resources without needing to leave campus.

To prevent the spread of infectious and communicable diseases, CISD has a districtwide health and safety plan in place. Preventive measures include regular handwashing, frequent cleaning and sanitizing of high-contact surfaces, and sending students home if they exhibit symptoms such as nausea, vomiting, diarrhea, or fever. Students are required to maintain up-to-date vaccinations unless a medical or religious exemption is on file with the district.

CISD also prioritizes mental health and wellness through suicide prevention and awareness initiatives. Training is provided for both staff and students to recognize the warning signs of suicidal ideation and to respond appropriately. Students who express or threaten self-harm are immediately assessed by a district social worker or educational psychologist to determine if transportation for medical or mental health intervention is necessary.

The district's physical safety procedures are comprehensive and consistently enforced. All visitors must enter through the main gates, where each entry point is secured with controlled locking systems. The Ident-A-Kid visitor management system is used to screen all guests and ensure they are not listed on any registered sex offender database. Clearly marked drop-off and pick-up zones are designated to support the safe and orderly flow of traffic during arrival and dismissal times.

CISD also enforces a robust Internet Safety Policy, which must be read and signed annually by both students and parents. The policy outlines appropriate use of technology for educational purposes only. To support student safety online, administration and counseling staff receive Bark Alerts—notifications that flag concerning or inappropriate online activity—allowing for timely intervention when needed.

In preparation for potential emergencies, CISD maintains a detailed Incident, Relocation, and Reunification Plan to ensure the safety and accountability of all students and staff in the event of an emergency or school evacuation.

Through these comprehensive health, safety, and wellness measures, CISD continues to uphold its commitment to providing a secure and supportive learning environment where every student can thrive.

Specific CISD strategies for creating safe, secure, and peaceful schools include:

1. Employment of licensed counselors and licensed social workers
2. Implementation of positive behavioral intervention and support programs.
3. Bullying Prevention Programs and guest speakers at all grade levels.
4. Training and implementation of teaching tolerance/inclusive practices.
5. Crisis prevention training for staff.
6. Social-emotional curriculum development that is implemented by a district-wide SEL coordinator who works with teachers at all grade levels.
7. Implementation of restorative justice approaches in place of punitive punishment.
8. Fall and Spring Consultations with the Department of Diné Education.

9. Implementation of the Cuba CARES Program.
10. Quarterly meetings with the CISD Indian Education Committee (IEC). The IEC is composed of parents of CISD American Indian students.
11. Monthly meetings with the Counselor, Ojo Encino and Torreon Chapter Houses.
12. District liaisons, who are familiar with Native culture and language, visit students and families at their homes (home visits) to discuss any issues their students are having and take suggestions back to the district leadership team to address.
13. Parent University events held for family engagement, promoting family input and involvement while engaging in activities for the entire family.
14. Employment of retired police officers as armed security guards at each school site for immediate response in case of emergencies.
15. Project-based learning projects that combine cross-curricular content that incorporate language and culture (e.g. CTE courses use language and culture as an asset to help students develop business models and sell products).
16. Incorporation of Native-authored books into curriculum at all grade levels.
17. Cultural recognition during specific times of the year, days, months throughout the school year.

Student Infractions for SY 2024-2025		
Native American	120	73%
Non-Native American	44	27%

SECTION 5 - GRADUATION RATES

This section of the report shares the percentage of Native American students graduating within four years, alongside state and district comparisons. **Required: 1. Report on the four-year cohort graduation rate for Native American students. 2. Comparison of state average and district-wide graduation rates for the same year. Note: If there are less than 10 students in the graduating cohort, data is masked**

Comparison of Native American Cohort Graduation Rates: State and District

COHORT	NM STATE RATE	CISD RATE
2024 4-Year Cohort	73.7%	86%
2023 5-Year Cohort	78.13%	86.37%
2022 6-Year Cohort	78.84%	92.37%

Graduation Rate Comparison for SY 2024-2025		
	New Mexico (State)	District (CISD)
All	80.01	85.63
Native American	78.84	86.37
Hispanic	79.58	83.25
English Language Learners	80.25	87.74

As both tables show, Cuba Independent School District Native American Graduation rates have consistently been higher than the NM State Native American Graduation Rates when comparing 4-, 5-, and 6-year cohorts. In addition, a comparison of SY 2024-2025 graduation rates show that CISD rates are higher than the state average for the same demographics and student groups. CISD implements a variety of including intervention through a Personalized Educational Plan (PEP) and additional class times at the high school and at the middle school and implementation of Next Step Plans in the 8th grade, in conjunction with a Career Inventory that follows students through their Middle and High School Careers and use of a graduation checklist for grades 9-12;

SECTION 6 - ATTENDANCE

This section details chronic absenteeism rates among Native American students, offering comparisons to state and district-wide data. **Required: 1. Chronic absenteeism rate disaggregated by ethnicity (defined as missing at least 10 percent of school days). 2. Three-year chronic absenteeism rate trend for Native American students. 3. Comparisons of district and state chronic absenteeism rates. 4. Commentary on attendance interventions or incentive programs implemented by the school district or charter school as well as commentary on community partnerships, and trends, while highlighting challenges and successes in keeping students engaged and present.**

1.CISD Chronic Absentee Rate for CISD per ethnicity for SY 2024-2025

Ethnicity	Absentee Rate
Native American	58.09%
Hispanic	43.2%
Caucasian	40.74%
Black/African American	33.33%
Asian	66.67%

2. Three-year Chronic Absentee Rate for Native American students

School Year	2024-2025	2023-2024	2022-2023
Chronic Absence Rate	54.29%	68.61%	60%

3.Comparison of Absentee Rate for Native American students at CISD vs. State of NM

School Year	2024-2025	2023-2024	2022-2023
CISD Absentee Rate	54.29%	68.61%	60%
NM Absentee Rate	unavailable	40.5%	48%

Note: Absentee rates for SY 2024-2025 were obtained from the NMPED Attendance Improvement Plan Portal, however data for state absentee rates were not available at the time of this report.

4. In SY 2024-25, attendance teams were created at each school site and they closely monitored attendance. Students who missed 2 or more consecutive days were contacted via phone or home visit to determine the reason for their absence. Students who missed 5, 7, or 10 days throughout the year received a letter from their principal. If a student missed 10 days in the school year, they were asked to come in with a parent to establish an attendance contract. Despite these efforts, absenteeism rates did not improve.

For SY 2025-26, CISD has established an attendance plan for the whole district, establishing a district-wide position who will closely monitor attendance at all grade levels. In addition to families receiving a 5, 7, or 10 day letter, the attendance plan also states that students who have exhibited 20% of absenteeism at any point in the school year will be required to meet with their principal. In addition, outreach efforts and all communications are focused on the importance of attendance and working with families to ensure that students are able to attend school regularly. In addition, looking at Panorama data for SY 2024-25, students stated that they felt a low level of “sense of belonging,” almost directly correlating with low attendance rates. For SY 2025-26, CISD is pushing to increase that sense of belonging for students with the implementation of community circles, improving student engagement, activities for students, and incorporating student voice.

SECTION 7 - PARENT AND COMMUNITY INVOLVEMENT

This section captures the district's efforts to engage Native American parents, families, and community members in meaningful ways. It documents consultation meetings, advisory groups, cultural events, and other activities that strengthen trust and collaboration. **Required: 1. List dates of consultation meetings. 2. Identify and describe tribal parent councils or advisory committees. 3. Summarize outreach and engagement events.**

The Cuba Independent School District meets with parents of Native children at least 8 times per school year, however, there was difficulty finding enough members for the IEC, therefore resulting in less meetings. As a result, the Indian Education Parent Committee was only able to meet a total of 5 meetings throughout the school year. However, those meetings lasted well over 2 hours to ensure that all important topics were covered during those meetings. The meetings occurred in December, January, February, March, and May.

The Cuba Independent School District identified the following programs and activities tailored to supporting Native American students and increasing parent involvement, as having a impactful effects and very positive results.

Native American Liaisons

CISD employs Navajo-speaking personnel conduct most of the home visits to help parents/guardians feel more comfortable and eliminate the language/cultural barrier. The use of Native American liaisons to visit families in the more remote areas of the reservation proved very successful in keeping parents involved in their children's education. Parents were grateful to be alerted about any difficulties their children were experiencing. Liaison and family visits were ongoing throughout the school year.

Back-to-School Supplies for Native American Students and Additional Instruction Materials for Teachers in the Bilingual Multicultural Diné Education Program

Students and parents were very grateful to receive assistance with obtaining school supplies for their children. In addition, Native American teachers were able to purchase additional instructional materials that helped Native American students to do better in the classroom. School supplies were purchased and distributed in August 2024 and any additional instructional materials for language classes occurred throughout the school year.

JOM Indian Education Parent Committee (IEPC)

The Cuba Independent School District (CISD) has had an Indian Education Parent Committee (IEPC) in place for many years. The IEPC is composed of three members who are parents of Native American children attending CISD. Each parent represents the school their child is attending: Cuba Elementary School; Cuba Middle School; Cuba High School. The purpose of the IEC is to collaborate with the CISD in identifying the needs of Native American students, reviewing the district's progress in meeting these needs and helping the district in communicating with Native American parents throughout the district, including the three Navajo Chapters. The IEC participates in the district needs assessment process, review of existing programs serving Native American students and review/ provide input on all federal grants. For SY 2024-25, the IEC met for the months of December, January, February, March, and May.

Local Tribal Community Chapter Meetings

Each month the three communities of the Navajo Nation that CISD serves meet with their communities and provide space for our representatives to speak and give an update of events at CISD. In addition, it allows space for community members to provide input and feedback on issues and concerns they may have with the school district. For the most part, all questions are answered on-site but if not, those questions and concerns are brought back to the district leadership team to be addressed. Community liaison who attends monthly meetings alternates between different chapter meetings as most communities have meetings on the same day, on the weekends, but representatives attend meetings each month.

Other Venues for Parent Involvement

The CISD also provides a variety of venues for parent involvement including: newsletters; Back-to-School Night; Parent-Teacher Conferences; Parent access to the CISD website; resources provided at the school level; the School Reach communication text messaging system; Wi-Fi connections in the community for students; and we are currently working on assembling another parent group that will be more centered around community engagement. CISD also provides monthly parent meetings, called Parent University, during which various topics are discussed. These topics vary based on what we have seen families struggling with in the past as well as community input on surveys that provide valuable feedback on resources that we lack in our CISD community. This forum also allows families to ask questions and provide feedback on other programs provided at CISD, as well as to bring up any issues they might be facing. All other venues are continuous throughout the school year with newsletters available quarterly, back-to-school nights occurring once per school year, Parent-Teacher conferences occurring once per semester, and Parent University events occurring every other month. Due to the high percentage of Native students, a majority of the parents for parent involvement events reflect that of the student population of Native students at CISD.

SECTION 8 - EDUCATIONAL PROGRAMS TARGETING AMERICAN INDIAN AND ALASKA STUDENTS

This section showcases academic and cultural programs designed specifically for Native American students. **Required: 1. Describe at least three programs (academic or cultural) serving Native American students, including purpose, activities, and target population. 2. Share participation numbers and measurable outcomes where possible.**

1. PROGRAM 1: Bilingual Multicultural Education Program

Purpose: Diné Heritage Language Program designed for students to revitalize Diné language

Target Population: Navajo students

Participation Numbers: 366

Measurable Outcomes: 1.1 By the end of SY 2024-2025, at least 3% of the Full Academic Year (FAY) Native American students in the Navajo language classes will be nearing orally Fluent or Fluent in the Diné language as measured by the Diné Language Assessment. 1.2 By the end of SY 2024-2025, at least 75% of the Full Academic Year (FAY) Native American students in all three categories (Non-Proficient, Limited, Fluent) will increase their Diné Language speaking skills by 3% as measured by the Diné Language Assessment. 2.1 By the end of SY 2024-2025, at least 3% of the students in the Spanish language classes will increase their Reading Fluency in the Spanish language as measured by the Spanish Language Assessment. 2.2 By the end of SY 2024-2025, at least 75% of the students in the Spanish language classes in all three categories (Non-Proficient, Limited, Fluent) will increase their Spanish speaking skills by 3% as measured by the Spanish Language Assessment. 3. At least 25% of EL students will show proficiency at grade level or higher in Reading/English Language Proficiency. 4. Academic Achievement - READING: 100% of students will show academic growth in reading as measured by Galileo results between beginning of year (BOY) and end of year (EOY). MATH: 100% of students will show academic growth in math as measured by Galileo results between beginning of year (BOY) and end of year (EOY).

Activities: Teachers took various field trips throughout the school year with a focus on Navajo language, culture, and history for all grade levels through the Navajo language class. Many teachers requested books, written by Native American authors, for their classrooms. Project-based learning projects at the high school level incorporated Native culture into many Career Technical Education classes, allowing students to incorporate language and culture into real-world scenarios and career fields. CISD celebrates Native American Heritage and Hispanic Heritage Months during which teachers incorporate activities celebrating those cultures across all classes.

2. Program 2: JOM Diné Heritage Language Program

Purpose: Designed for students to revitalize Diné language

Target Population: Navajo students

Participation Numbers: 366

Measurable Outcomes: By the end of SY 2024-2025, at least 3% of the Full Academic Year (FAY) Native American students in the Navajo language classes will be nearing orally Fluent or Fluent in the Diné language as measured by the Diné Language Assessment. By the end of SY 2024-2025, at least 75% of the Full Academic Year (FAY) Native American students in all three categories (Non-Proficient, Limited, Fluent) will increase their Diné Language speaking skills by 3% as measured by the Diné Language Assessment. At the time of this report, the Department of Dine Education's Office of Standards, Curriculum & Assessment Development (OSCAD) had not shared reports of assessment data with CISD. This has been an ongoing issue that CISD has expressed concern about on numerous occasions both directly with OSCAD, as well as bringing it up at the annual tribal consultations with DODE, however no assessment data has been made available for analysis. For

SY 2025-2026, CISD plans to gather data internally to analyze language program efficiency, based on recommendations by DODE. No students passed the Dine Bilingual Seal Assessment for SY 2024-2025.

Activities: 1. Navajo Language/Culture/Government instructors, content area teachers and IEC members reviewed and identified supplemental instructional materials that focused on (Dine) Navajo Culture/ History/Government and support for Navajo students in content area classrooms, reading, music, etc. 2. Navajo Language/Culture/Government instructors/ content area teachers (Proficient Navajo language instructor preferred) purchased supplemental academic instructional materials for use in Navajo Language and content area classrooms to enhance students' oral and written skills in Navajo language development and skills in the content areas, reading, music, etc.

3. Program 3: Indigenous Summer Program

Purpose: To incorporate Indigenous language and culture in all facets of education and life during the summer programming.

Target Population: Open to all students in grades 6-12.

Participation Numbers: In SY 2024-25, there were 120 participants.

Measurable Outcomes: Students did not regress academically over the summer break when they participated in the Indigenous Summer Program. This is measured by the EOY results of the interim assessment as compared to the BOY interim assessment of the following year and looking at specific students to track their scores and whether academic regression had occurred. NM-MSSA data for SY 2023-2024 show proficiency rates in Math at 3%, Reading at 17%, and Science at 16%. However, students participated in Indigenous Summer Programs at CISD between school years 23-24 and 24-25 and NM-MSSA scores improved when compared. For SY 2024-2025 NM-MSSA scores show an increase in all three subject areas with Math at 7.69%, Reading/Language Arts at 20.88%, and Science at 25.42%. Although still below the state average, students show progress in proficiency when compared to previous years due to many factors, including addressing the regression that students commonly experience over the summer months between school years.

Activities: Project-based learning incorporating various content areas and teachers while keeping Indigenous language and culture as the focus. Field trips are embedded in the lessons and include trips to local acequias, historical sites around the state, as well as bringing in speakers from various professions who shine a light on Indigenous success. Activities within classes surround curriculum around traditional beading, weaving, horticulture, etc..., allowing students to incorporate core content subjects to everyday life.

SECTION 9 - FINANCIAL REPORTS

This section explains how funding supports Native American student needs, including allocations, sources, and alignment to needs assessment findings. A budget table or chart paired with narrative explanation strengthens clarity and accountability. **Required: 1. List funding sources serving Native American students. 2. Share total allocations and a brief narrative of how funds were used. 3. Describe the alignment between needs assessment and budget, if applicable. 4. Provide a budget table or pie chart.**

Please refer to Appendix A for the required items relevant to CISD funds impacting Native American Students and families.

All CISD budget allocations are determined based on the identified needs of students. Each school year begins with an annual Needs Assessment survey distributed to parents and families, allowing them to provide input on district programs and funding priorities. In addition to the survey, ongoing opportunities for input are provided through parent committee meetings, local chapter meetings, school board meetings, and direct conversations with families. These forums ensure that parents, guardians, and community members have a meaningful voice in how district resources are utilized.

Student input is also a critical component of the budgeting process. CISD regularly gathers student feedback through surveys, student voice meetings, and discussions with various student groups and individuals. This information helps identify programs students find effective, areas for improvement, and opportunities for new initiatives that enhance their educational experience.

Based on this collective input, CISD allocates funds to support programs that best serve students' academic, cultural, and social-emotional needs. Families consistently emphasize the importance of sustaining strong language programs, particularly Navajo language instruction, while also prioritizing core academic areas such as mathematics and reading across all grade levels. At the high school level, students express significant interest in expanding Career Technical Education (CTE) programs that prepare them for future careers.

Community members also advocate for increased funding to support family engagement events that welcome and include all members of the family. Due to the district's large geographic area, a considerable portion of the budget is dedicated to transportation to ensure students have reliable access to school. Finally, CISD allocates substantial funding toward staff recruitment and retention to remain competitive with neighboring districts and to attract and retain certified, highly qualified educators.

The evaluation and effectiveness of programs and funding allocations are continuously monitored through ongoing input from all stakeholders. Student voice remains a central component of this process, ensuring that students receive the type of education they envision and value. At the same time, academic achievement remains the foundation of all district efforts—extending beyond core subjects to include language development, Career Technical Education (CTE), and a variety of elective courses that support well-rounded learning.

CISD also recognizes that students' emotional well-being is essential to their overall success. Equally important is the active engagement of parents, families, and community stakeholders,

whose perspectives help shape an educational system that truly reflects and meets the needs of our students—the future of our community.

SECTION 10 - CURRENT STATUS OF FEDERAL INDIAN EDUCATION **POLICIES AND PROCEDURES (IPPs)**

This section provides a concise update on the district's IPPs, including the status of annual signatures and any changes made based on tribal input. It ensures compliance while showing responsiveness to community perspectives. **Required: 1. Summarize the IPP. 2. Share the status of the IPP signature process for the current year. 3. Explain why no signatures were obtained.**

The CISD's Indian Policies and Procedures are renewed each year in December. This gives ample time for parent and community input for the new school year. The IPPs are required as part of the Impact Aid application and ensures that all Native American students have equal access to all programs, services, and activities that are offered by CISD. Consultation with local tribal officials and parents of Native American children to plan and develop the IPPs helps to guide educational programs and any educational and/or extracurricular activities. The CISD disseminates all grant applications, evaluations, program plans and information related to the educational programs and activities with sufficient notice to allow review and recommendations by parents and/or tribal representatives. The CISD provides an opportunities for representatives from the Navajo National Department of Dine Education, Navajo Nation Chapter Presidents and parents of Native American children to provide their views on the district's educational programs and activities, including recommendations on the needs of their children and how to help children realize those benefits. This occurs through meetings with DODE twice per year, monthly chapter house meetings, and monthly Indian Education Parent Committee meetings. The CISD annually assesses the extent to which Native American children participate on an equal basis with non-Native children in educational programs and activities through data analysis of assessments, individual progress monitoring, and participation numbers. The CISD reviews the IPPs throughout the school year with Indian Education Committee to determine if modification is needed based upon results of any assessment or input. Annually, the CISD responds to comments and/or recommendations made by tribes or parents and disseminate those responses to the tribes and parents prior to the submission of the IPPs. The IPPs are disseminated to the affected tribes annually by sending a copy to DODE, each local chapter house and making it available online, on their website.

The IPPs were signed for SY 2024-2025. They are currently under review by parents of the Indian Education Parent Committee and will be renewed in December of 2025, during which the school board will decide to approve or deny the IPPs.

11. DROPOUT PREVENTION AND ATTENDANCE INITIATIVES

This section describes targeted strategies to keep Native American students in school and engaged. This section should include dropout data, intervention program summaries, and outcomes for re-engaged students. **Required: 1. Summarize targeted strategies to reduce dropout rates and increase attendance among Native American students. 2. Provide dropout rate data for the past three years. 3. Describe participation in credit recovery or mentorship programs. 4. Comment on the work of school-based Native American liaisons or support staff .**

CISD has in place a number of supports for students and believes that even one student dropping out is one too many. CISD staff will continue to review the impact of programs and activities that are being implemented in support of American Indian parents and students. Staff will also continue to research and implement best practices that have proven to lower the school dropout rate and increase attendance. In addition, CISD has developed the Cuba Cares Team to address any at-risk students who may be struggling academically or otherwise. Several CISD personnel are a part of the Cuba Cares Team to monitor and provide supports to those students who need it most, particularly during the COVID crisis. Supports include educational as well as any hardships they are facing at home that could hinder their educational experience. CISD implements the following strategies to keep students in an educational setting: tutoring; mentoring; guidance counseling (by a school counselor or traditional Navajo consultant); home visits; culturally relevant instructional materials, strategies and curriculum; Advocacy Class that provides an opportunity for students to discuss issues, concerns, ideas, etc.

Drop out rate for the past three years: 0

Number of students participating in credit recovery: 20

In SY 2024-2025, all students in grades 9th-12th grade participated in a mentorship/internship program in which they explored their chosen career fields further.

CISD employs Navajo-speaking personnel conduct most of the home visits to help parents/guardians feel more comfortable and eliminate the language/cultural barrier. The use of Native American liaisons to visit families in the more remote areas of the reservation proved very successful in keeping parents involved in their children's education. Parents were grateful to be alerted about any difficulties their children were experiencing. Liaison and family visits were ongoing throughout the school year. The Native American liaison for the CISD worked with families of students who were considered chronically absent. The liaison was available for families to help them find solutions to the reasons why their child was absent. In many instances, communication was not clear between the school and the parent whether it was due to a language barrier, miscommunication, or any number of other reasons. In addition, the liaison worked closely with principals and attendance staff to ensure that they understood the laws surrounding student attendance and why it is important for students to be in school. In most instances, the relationships built between the liaison and families created a civil working relationship between the families and the school district.

SECTION 12 - PUBLIC SCHOOL USE OF VARIABLE SCHOOL CALENDARS

This section confirms whether a variable school calendar is in use and, if so, describes how it accommodates tribal cultural events or community needs. It should also note any consultation that informed calendar planning. **Required: 1. State whether the school district or charter school uses a variable calendar.**

The CISD Calendar Committee develops the annual calendar with input from parents. Although local community Native American cultural days are not specifically listed on the calendar, CISD does accommodate the observance of feasts, ceremonies and other cultural events. As part of the district calendar approval process, CISD makes available the proposed calendar for public comment. Students are able to participate in their community cultural activities. The district calendar development process is meeting the needs of the Native American community. Any changes or suggestions for change to the academic calendar are presented to the community via surveys to gather input to gauge whether it is supported or not by those individuals who are impacted the most by it- parents, families, and students.

SECTION 13 - TRIBAL CONSULTATION

This section documents the district's formal consultations with tribes, including dates, attendees, and topics discussed. **Required: 1. List consultations and meetings with tribes, Indian education committees, school-site parent advisory councils, municipal organizations, and Indian organizations (include dates, attendees, and topics discussed). 2. Summarize key priorities and concerns raised.**

CISD meets twice per year with the Navajo Nation's Department of Dine Education for a fall and spring tribal consultation. Each consultation is attended by a team designated by DODE and a team by CISD and meets for one hour. Generally, the CISD team is made up of the Indian Education/Federal Programs Director, Superintendent, Assistant Superintendent, and any other principal and/or director who is available to attend. Oftentimes, DODE asks CISD to ask key personnel in other roles to attend the Spring Consultation after meeting initially for the Fall Consultation. The Fall Consultation gives a general update on funding and their uses as well as enrollment numbers. At this time, any questions and concerns are discussed by both teams as well as deciding on a focus for the Spring Consultation, where the meeting will be more in-depth on a decided subject matter. For SY 2024-25, the Fall Consultation took place on October 28, 2024; the Spring Consultation occurred on March 21, 2025.

The CISD Indian Ed Parent Committee (IEPC) plays a major role in conducting a comprehensive needs assessment to identify Native American student needs and to allocate funding that will target these needs. Step 1: CISD IEPC meets with principals and surveys counselors, teachers, Parent Liaisons, Special Education staff, parents and students to clarify needs that are hindering the success Native American student. This allows for the identification of needs based on both qualitative and quantitative data. Step 2: Needs are prioritized. Step 3: Analysis is conducted to determine the "root causes" for each prioritized need. Step 4: A logic model approach is used to determine the following key elements. Step 5: Education Plan for the top prioritized needs is created that includes: Stating the Need; Establishing Goal(s); Identifying Objectives; Describing strategies and activities; Evaluating outcomes; Identifying possible funding sources and amounts. In addition, the Cuba Schools Central Office Administrative Team participates annually in the Navajo Nation

Tribal Consultation process and meets with the official Navajo Nation Consultation Team to discuss the best types of educational programs for Cuba Schools Native American students. The Cuba Schools Central Office Administrative Team also meets monthly with the Navajo Nation Chapter Presidents from Counselor, Ojo Encino, and Torreon via the Tri-Chapter Council Meetings. The meeting locations rotate among the three Chapters.

Key priorities and/or concerns raised during tribal consultations with the Department of Dine Education for SY 2024-2025 included the breakdown of budget and how they are allocated, proficiency and test result data, the need for Navajo language proficiency results from OSCAD, the need for more collaboration between the Navajo Nation and NMPED, particularly when reporting similar data to both entities, and the communities' ask for help in road repairs on the part of the Navajo reservation that Cuba Independent School District serves. The Department of Dine Education informed CISD that they would do what they could to address all of these concerns and ensuring that our communities and students would be supported by the Navajo Nation.

SECTION 14 - INDIGENOUS RESEARCH AND EVALUATION MEASURES AND RESULTS FOR EFFECTIVE CURRICULA FOR AMERICAN INDIAN AND ALASKA NATIVE STUDENTS.

This section shares how the district evaluates curricula for cultural relevance and effectiveness with Native American students. **Required: 1. Summarize the types of research, assessments, or evaluation methods applied to determine curriculum effectiveness. 2. Share the results of curriculum evaluation and subsequent adaptations to curriculum or teaching methods.**

1. The district uses a variety of research and evaluation methods to analyze the effectiveness of the curriculum. First, by analyzing data from short-cycle assessments, Istation for grades K-2, iMSSA for grades 3-8, and Progress Learning for grades 9-12, unit assessments, and daily formative assessments. Secondly, through teacher observations and fidelity implementation checks. Finally, by comparing pacing guides with state standards.

2. The district will begin monitoring where teachers are in their lesson plans versus pacing guides in the 25-26 school year. Data from district-wide, interim assessment data showed gains in Math, Reading, Language Usage, ELL progress, and Attendance. Math proficiency rose from 13.8% to 19%, Reading from 17.5% to 23%, and Language Usage opened at 16%. ELL proficiency increased from 2 to 8 students, and attendance improved from 33.5% to 45%.

At the elementary level, Math doubled to 6% and Reading tripled to 12%, with attendance jumping from 29% to 66%. Middle school saw Math more than double to 12.3% and Language Usage reach 17%, though Reading dipped to 18% and attendance declined slightly. High school performance remained strong, with Math increasing to 39% and ELA to 36%, while ELL proficiency rose from 1 to 6 students. Attendance dropped to 26%, but alignment with SAT will be strengthened by transitioning to Horizon Education assessments.

SECTION 15 – ACCESS TO NATIVE LANGUAGE PROGRAMS

This section outlines Native language offerings, enrollment data, and the qualifications of instructors. It should also document how programs are evaluated and how they connect to language preservation goals. **Required: 1. Summarize Native language programming (include courses, enrollment data, and overview of curriculum). 2. Provide the number of 520-certified instructors (include professional development related to improving instructional practices). 3. Share evaluation methods used to assess Native-specific curriculum effectiveness; and 4. Provide information related to the State Seal of Bilingualism and Biliteracy, including number of students earning the seal and the languages in which it is offered.**

In SY 2024-2025, Navajo students, in grades K-12, participated in the Diné Language Heritage Language Program, which included participation in the K-12 Navajo Curriculum. The curriculum was developed and implemented by the Heritage Language teachers and the Indian Education Director, incorporating DODE Dine Language Standards as well as local culture and traditions. The curriculum includes the following courses:

Grades K-5: Navajo Language/Culture: incorporates speaking, reading, writing, Navajo culture, Navajo government, and Navajo history

Grades 6-8: Navajo Language/Culture: incorporates speaking, reading, writing, research, presenting, Navajo culture, Navajo government, and Navajo history

Grades 9-12: Navajo I: Basic Navajo language/culture concepts: speaking, reading, writing, Navajo culture, research, presenting

Navajo II: Intermediate Navajo language/culture concepts: learning to speak fluently and use Navajo language in everyday scenarios, incorporate culture into research and presentations, involves more advanced knowledge of Navajo language, reading, and writing

Navajo III: Advanced Navajo language/culture concepts: speaking fluently in everyday situations, incorporate Navajo language and culture into research and presentations, speaking to others who are fluent in the community, requires extensive knowledge of Navajo language, reading, and writing.

Students who have completed three years of Navajo language are eligible to test for the New Mexico Public Education Bilingual Seal, offered starting SY 2019-2020. Students are eligible for the New Mexico Seal of Bilingualism and Biliteracy in the Navajo language when they complete and pass the Navajo Nation's Bilingual Seal Assessment. In addition, the Navajo Nation, through Office of Standards, Curriculum, and Assessment Development, requires all Navajo students to be tested via the Dine Language Proficiency Assessment at the Kindergarten, 4th, 8th, and 12th grades to test concepts that align with the DODE Dine Language Standards. These assessments are required at the beginning of the year and end of the year (pre- and post-tests) that allow teachers to evaluate program efficiency and supports needed to revitalize Navajo language.

Navajo History and Government Courses

Navajo students participated in Navajo Government & History courses which are offered as dual credit courses by Navajo Technical University in conjunction with the Cuba Independent School District. Upon completion, NTU awards students with college credit as well as a certificate of completion.

CISD offers the NM State Seal of Bilingualism & Biliteracy in Navajo and Spanish. In 2024-2025, 0 students received the SSBB in Navajo due to not passing the Navajo Nation's Bilingual Seal Assessment; 4 students received the SSBB in Spanish.

Number of American Indian Students are enrolled in Native Language Classes: 366 students.

Number of 520 Teachers Who are Certified to Teach Native Language Classes: 6 teachers

Certified 520-Navajo teachers are provided with Professional Development opportunities throughout the school year. Many opportunities are provided by the Navajo Nation through the Office of Standards, Curriculum & Assessment Development specifically for Navajo language teachers. Teachers also participate in PD opportunities through the Indigenous Language Institute, Northern Arizona University, and others that come up each year. All PD opportunities that provide 520-licensed teachers with Professional Development hours that can be applied towards their license renewal are shared with all teachers and they decide what they are able to go to. All teachers, including 520-licensed teachers, are entitled to 80 PD hours per school year that is covered by the district. However, during SY 2024-2025, Navajo teachers were able to attend more PD, particularly during the summer months, which CISD covered all costs for. In addition, during the school year, all Navajo teachers worked with a Navajo language expert to develop an aligned curriculum for grades K-12.

APPENDIX A

PROGRAM	DESCRIPTION	IMPLEMENTATION	# OF STUDENTS SERVED	FY25 BUDGET
ACCT: 11000 Operational	Operational Funding	- Teachers, Administrators, Central Office, Technology, Maintenance /custodial, Pool, Security - Fixed Costs – Utilities, Insurance, etc.	District-wide: All students	\$16,837,101
ACCT: 11000 State Bilingual Multicultural Education Program	Goals are for all students, including English language learners, to: a) Become bilingual and biliterate in English and a second language, including Spanish, a Native American language or another language; b) Meet state academic content standards and benchmarks in all subject areas.	Covers a portion of Bilingual Teacher salaries and benefits; Professional Development (4.0 FTE)	District-wide: All students participating in Diné and Spanish Language Heritage Programs	(part of regular SEG distribution)
ACCT: 12000 Teacherage	Funds generated by Teacherage rentals for upkeep and maintenance of Teacherages	- Repairs/Maintenance - Utilities	District-wide: All Students	\$208,331
ACCT: 13000 Transportation	To/From Transportation	- Bus Drivers, Mechanic, Director - Diesel, parts, etc.	District-wide: All Students	\$1,088,890
ACCT: 15100 Impact Aid Operational	Operational funding generated from the Impact Aid federal program that provides revenue to local governmental entities, including school districts, in lieu of property taxes for those on sovereign & federal lands.	- Teacherage principal and interest payments - Transportation - Capital Outlay - Other Operational Costs	District-wide: All Students	\$4,201,668

APPENDIX A

PROGRAM	DESCRIPTION	IMPLEMENTATION	# OF STUDENTS SERVED	FY25 BUDGET
ACCT: 15200 Local Mineral Revenue	Local revenue generated from Forest Reserve/Ad Valorem/Oil Gas Tax/Copper	• Transportation • Capital Outlay • Other Operational Costs	District-wide: All Students	\$342,937
ACCT: 21000 USDA School Lunch Program	Federally meal program that provides nutritionally balanced, low-cost or free lunches.	• Contracted services Food Service Management Food service equipment/repairs	District-wide: All Students	\$967,894
ACCT: 22000 Athletics	Athletics (Gates Receipts Only)	• Game Workers	District-wide: Athletics	\$95,745
ACCT: 24101 Title IA	Provides financial assistance to local educational agencies and schools with high numbers or high percentages of children from low-income families to help ensure that all children meet challenging state academic standards.	• After school programs • Homeless set-aside • Parent/Family Engagement set-aside • Foster Transp. set-aside • Teachers, EA's • Software, Supplies	District-wide: All Students	\$924,490
ACCT: 24106 IDEA-B Special Education	This program lays out the educational guidelines for school children 3-21 years of age. By law, states are required to educate students with disabilities (Martin, Martin, & Terman, 1996). IDEA provides financial support for state and local school districts.	• Supplemental SPED Teachers; SPED EA (1.0 FTE); SPED Liaison (1.0 FTE) SPED Admin Asst (Partial FTE) • SPED Teacher Stipends • Supplies, PD, programs, field trips	District Wide: Special Education Students	\$277,345
ACCT: 24109 Preschool IDEA-B	To receive this grant, the District must serve all eligible children with disabilities aged 3 through 5 .	• Sped Admin Asst (partial FTE) • Supplies	Preschool Special Education Students	\$16,155

APPENDIX A

PROGRAM	DESCRIPTION	IMPLEMENTATION	# OF STUDENTS SERVED	FY25 BUDGET
